

WORLD PREMIUM Riesling 2018

Vintage report

A very early flowering thanks to the warmest April on record led to expectations of an early harvest. However, the hot and dry, sunny summer served as an additional ripening accelerator. The settled weather conditions continued into harvest, allowing many grapes to stay on the vine right up to October and partly to November. The drought did present major challenges for growers in some locations and the steeper vineyards had to be partly irrigated. However, the Rheinhessen growers were overall pleasantly surprised with the performance of their vines.
