

Blumenwiese rosé 2020

Producer

No architect, no painter can create something as beautiful and original as a flower meadow, which is unique in its variety of colors and shapes. With the flower meadow we take up the desire for nature, peace, originality and inspiration.

Vintage report

In Germany's largest wine-growing region, too, the lack of precipitation was one of the biggest challenges this year. The rain was distributed very differently across the region, but there was clearly too little everywhere - and that for the third year in a row. However, the weather also brought good sides. The cherry vinegar fly, which has been feared for several years, did not cause any problems in 2020. In terms of quality, 2020 joins the ranks of the solid previous vintages. Due to the healthy grape condition, the young wines show a clear aroma and sufficient acidity values despite the high temperatures in late summer.

Characteristics

 fresh strawberry, light floral scent.

 fresh, light fruity sweetness paired with stone fruit bouquet

 solo, salads, light pasta dishes, fish

Facts
